

**RECLAMATION DISTRICT NO. 1608
LINCOLN VILLAGE WEST
BOARD OF TRUSTEES MEETING
WEDNESDAY, JUNE 3, 2020,
8:00 A.M.
ENGINEER'S REPORT**

I. PLAN REVIEW

- A. Review status of Annual Levee Inspection of the District's Levee system.

EXHIBIT A: Violation/Remedy Tracking for 2020 Inspection.

II. DELTA GRANT II – PROPOSED STORAGE CONTAINER AND SUPPLYS

- A. Review and update the Board of Trustees of the Delta Grant II – Proposed Storage Container and supplies. Container delivered and set up floodfight materials being ordered.

EXHIBIT B: Field Photos of the new container.

III. SEDIMENT REMOVAL PROJECT

- A. Review letters to Landowners along Sediment Removal Alignment.

1. Typical Request for temporarily relocation of **Boat/Vessel moored** to existing dock.

EXHIBIT C: Letter to landowners for Boat/Vessel relocation.

- a) Typical Acknowledgement and acceptance form of Boat/Vessel relocation.

EXHIBIT D: Acknowledgement for Boat/Vessel.

2. Typical Request for temporarily relocation of **Attached Dock Feature** to existing dock.

EXHIBIT E: Letter to landowners for Attached Dock Feature relocation.

- a) Typical Acknowledgement and acceptance form of Attached Dock Feature relocation.

EXHIBIT F: Acknowledgement for Attached Dock Feature.

3. Landowner lists for Boat Vessel Notice and Attached Dock Feature notice.

EXHIBIT G: Boat/Vessel List.

EXHIBIT H: Attached Dock Feature List.

- B. Review aerial map layout of dock numbers and addresses.

EXHIBIT I: Aerial Map Layout of Dock No.'s and Addresses.

IV. DELTA LEVEES SUBVENTION PROGRAM – AB 360

- A. Review status of work plan for the placement of rock slope protection at the Southeastern terminus of RD 1608 on Fourteenmile Slough. Dino & Son Co. will start work after July 1 to avoid the nesting bird issues within our CDFW Routine Maintenance Agreement.
- B. Seek authority of the Board of Trustees to prepare a less than \$25,000 contract for the annual maintenance of gates along the levee crown in the Southwest Quadrant.

Re: Reclamation District No. 1608 – Lincoln Village West Sediment Removal Project – Boat/Vessel Relocation Request.

Mr. XXX,

Reclamation District 1608 - Lincoln Village West (District) is planning to undertake a sediment removal project along a section of 14 Mile Slough, adjacent to Fourteen Mile Drive and Embarcadero Drive south of the marina. You may have your boat/vessel moored in a manner that will impede the District's ability to dredge along its design alignment that will need to be temporarily relocated. I have included a typical **EXHIBIT A** showing how a moored boat/vessel can impede the dredging limits

The sediment removal project is planned to occur within the regulated work window of August 1st to November 30th, 2020. You are receiving this letter so that you can review the planned limits of the dredging locations as it relates to the location of any boat/vessel on your dock that may be moored within the dredge area. The District is seeking your cooperation to temporarily relocate any boat/vessel or other items from the dredge limits of the sediment removal area. The location of the sediment removal will not require removal of the originally approved dock, however if you can temporarily relocate your boat/vessel behind the existing dock or at a point that they do not extend any farther into the channel than the existing dock, it will be acceptable. If you are unable to relocate your boat/vessel locally then you must relocate outside the project limits for the duration of the Sediment Removal Project.

The intent of the Sediment Removal Project is to deepen the channel to allow waterborne, marine construction equipment access to the District's levee to ensure unobstructed emergency response for repairs.

The District respectfully requests that you review the attached **EXHIBIT A** and sign the enclosed Acknowledgement form and return to the District to confirm your commitment to remove your boat/vessel from the dredging area prior to the start of the project and during the project. It is anticipated that the time frame for this relocation and project should be on the order of 6-8 weeks long

Please note the following dates:

- **Latest Date to inform the District you will move your dock feature: June 15, 2020**
- **Latest Date to relocate your boat: July 20, 2020**

If you do not elect to temporarily relocate your boat/vessel the District will then be required to realign its design alignment to avoid your facilities. I therefore ask that you let me know as soon as convenient as to your intent.

The start date of this Sediment Removal Project will be **Monday August 3, 2020**. Prior to this date you will see activity in and around the project site including the delivery of the Dredge equipment and discharge pipe. In addition, to the **EXHIBIT A** showing your moored boat/vessel at your dock and the dredge alignment, I have also included an 8 ½ X 11” reduced set of the Sediment Removal Plans for your reference. Provided you have any questions regarding this project please contact me directly at 209-946-0268 or cneudeck@ksninc.com.

Sincerely,
KJELDTSEN, SINNOCK & NEUDECK, INC.

ACKNOWLEDGMENT AND ACCEPTANCE OF RECLAMATION DISTRICT 1608 – LINCOLN VILLAGE WEST REQUIREMENTS TO TEMPORARILY RELOCATE BOAT/VESSELS MOORED INTO THE DESIGN ALIGNMENT OF THE SEDIMENT REMOVAL PROJECT

The undersigned hereby acknowledges and accepts that they have reviewed and understand the District’s request for the temporary relocation of their boat (if) moored on their dock as provided below.

The undersigned understands and agrees to the following

1. The boat (if) moored to the undersigned’s dock that extend into the design alignment shown on attached **EXHIBIT A** will be temporarily relocated.
2. This includes the typical moored boats shown in **EXHIBIT A**, as well as any additional features that have been added since the preparation of **EXHIBIT A** that extend into the design alignment.
3. The undersigned owner of the property agrees to temporarily relocate these vessels if moored to their docks at their own cost and responsibility.
4. The undersigned owner agrees to cooperate with the District and relocate their boat(s), at their cost and responsibility no later than **July 20, 2020**.
5. The Sediment Removal Project is planned to start **Monday, August 3, 2020** and the requested relocation duration should be on the order of 6-8 weeks.
6. If this acknowledgement is not provided, and the appurtenances are not removed, the design alignment will be modified.
7. If there are no boats/vessels moored to the dock, please check this box and sign below:

There are no f boats/vessels moored to the dock that extend into the Dredging Limit.

**Re: Reclamation District No. 1608 – Lincoln Village West Sediment Removal Project –
Landowner Dock Features Relocation Request.**

Mr. XXX,

Reclamation District 1608 - Lincoln Village West (District) is planning to undertake a sediment removal project along a section of 14 Mile Slough, adjacent to Fourteen Mile Drive and Embarcadero Drive south of the marina. The District has identified specific boat slips and boat hoists (dock features) that are moored beyond the original docks and situated in a manner that will impede the District's ability to dredge along its design alignment. I have included an **EXHIBIT A** of your dock showing the additional dock features that need to be relocated.

The sediment removal project is planned to occur within the regulated work window of August 1st to November 30th, 2020. You are receiving this letter so that you can review the planned limits of the dredging locations as it relates to your boat dock and attached dock features including boats, additional docks, and boat hoists. The District is seeking your cooperation to temporarily relocate those dock features from the limits of the sediment removal area. The location of the sediment removal will not require removal of the originally approved dock, however if you can temporarily relocate the additional dock features behind the existing dock or at a point that they do not extend any farther into the channel than the existing dock, it will be acceptable. If you are unable to relocate your dock features locally then you must relocate outside the project limits for the duration of the Sediment Removal Project.

The intent of the Sediment Removal Project is to deepen the channel to allow waterborne, marine construction equipment access to the District's levee to ensure unobstructed emergency response for repairs.

The District respectfully requests that you review the attached **EXHIBIT A** and sign the enclosed Acknowledgement form and return to the District to confirm your commitment to detach and relocate your dock features prior to the start of and during the project. It is anticipated that the time frame for this relocation and project should be on the order of 6-8 weeks long.

Please note the following dates:

- **Latest Date to inform the District you will move your dock feature: June 15, 2020**
- **Latest Date to relocate your dock features: July 20, 2020**

If you do not elect to temporarily relocate your dock features the District will then be required to realign its design alignment to avoid your facilities. I therefore ask that you let me know as soon as convenient as to your intent.

The start date of this Sediment Removal Project will be **Monday August 3, 2020**. Prior to this date you will see activity in and around the project site including the delivery of the Dredge equipment and discharge pipe. In addition, to the **EXHIBIT A** showing your dock and the dredge alignment, I have also included an 8 ½ X 11” reduced set of the Sediment Removal Plans for your reference. Provided you have any questions regarding this project please contact me directly at 209-946-0268 or cneudeck@ksninc.com.

Sincerely,

**ACKNOWLEDGMENT AND ACCEPTANCE OF RECLAMATION DISTRICT 1608 – LINCOLN VILLAGE WEST REQUIREMENTS
TO TEMPORARILY RELOCATE DOCK FEATURES EXTENDING INTO THE DESIGN ALIGNMENT OF THE SEDIMENT
REMOVAL PROJECT**

I have reviewed and understand the District's request for the temporary relocation of dock features attached to my dock as provided below.

I understand and agree to the following:

1. The dock features attached to the dock that extend into the Dredge Limit shown on attached **EXHIBIT A** will be temporarily relocated.
2. This includes the items shown in **EXHIBIT A**, as well as any additional features that have been added since the preparation of **EXHIBIT A** that extend into the design Dredging Limits.
3. I agree to temporarily relocate these features at my own cost and responsibility.
4. I agree to cooperate with the District and relocate these features, at my own cost and responsibility no later than **July 20, 2020**.
5. The Sediment Removal Project is planned to start **Monday, August 3, 2020** and the requested relocation duration should be on the order of 6-8 weeks.
6. If this acknowledgement is not provided, and the features are not removed, the Dredge Limit will be modified further from the levee.
7. If there are no features attached to the dock, please check this box and sign below:

There are no features that extend into the Dredging Limit.
